PROFILE

19-year-old engineering student and video editor specialising in talking-head videos, vlogs, podcasts, gaming and marketing content. Strong in colour grading, sound clean-up, pacing and storytelling in DaVinci Resolve, with a focus on editing for audience retention on Reels and Shorts. Also codes, which helps with building templates and automating repetitive work.

SKILLS

Video types	Talking head, Vlog, Podcast, Gaming, Motion graphics, Real estate, Marketing
Editing	A-roll / B-roll, multi-camera editing, rhythm & pacing, transitions, storytelling, subtitles, SFX
Post-production	Colour grading & correction, tracking, composition, relighting, audio clean-up & sound design
Software	DaVinci Resolve (Professional), Premiere Pro (Intermediate)

SELECTED PROJECTS

Vlog — Before / After colour grade

Client video · DaVinci Resolve

- Colour graded every cut to guide the viewer's focus, fix flat-looking footage and match the video's energy.
- Built one reusable batch of colour nodes and applied it across the timeline, saving time on every scene.
- Balanced the audio: lifted the speaker's voice slightly and lowered traffic and wind noise without making it sound like a voice-over.

Talking head — Short-form edit

7 min footage → 1:31 short

- Cut a 7-minute shot down to a 1:31 short by removing repetitive parts and keeping the strongest moments.
- Added a hook at the start, punch-in zooms, a shine effect, a yellow background and subtitles to match the creator's style.

6-skill mini reel

71-second reel · see portfolio

- One reel showing colour grading, transitions, rhythm & pacing, storytelling, SFX and motion graphics on a single timeline.

STRENGTHS

- Creative imagination: I bring original ideas into every edit.
- Storytelling: I can build different storylines out of limited visuals.

EDUCATION

B.E. / B.Tech, Computer Science — Indira, Pune *2025 – 2029 (expected)*

CURRENTLY LEARNING

Audience psychology & retention · Hook writing & scripting · Content strategy & platform algorithms · Analytics & performance tracking · Template building
